Office Action Summary

Art Unit: 1711

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless --

(e) the invention was described in a patent granted on an application for patent by another filed in the United States before the invention thereof by the applicant for patent, or on an international application by another who has fulfilled the requirements of paragraphs (1), (2), and (4) of section 371© of this title before the invention thereof by the applicant for patent.

2. Claims 1-8 are rejected under 35 U.S.C. 102(e) as being clearly anticipated by Kato et al '967.

The cited prior art discloses a non-sticking sliding part molding composition comprising a mixture of a fluororesin and a thermoplastic resin other than the fluororesin, and a fibrous filler. The prior art composition has features and characteristics as claimed. See columns 2, 3, 6, and 7.

3. References listed on PTO-1449 have been made part of the record.
